

Andre Loreth

Software Architect | Platform & Cloud Engineer
andre@loreth.co | github.com/wipeair | Germany

Software architect with 10+ years of experience designing and operating production-grade web platforms. Strong focus on backend architecture, cloud-native infrastructure (GCP), and pragmatic system modernization. Experienced in leading technical delivery in consultancy and startup environments.

PROFESSIONAL EXPERIENCE

abi group GmbH — *Managing Director & Software Architect*

02/2023 – Today

Software consultancy specializing in tailored backend and cloud solutions.

Responsibilities

- Technical ownership of client system architectures
- End-to-end backend and infrastructure design (containerized environments)
- Architecture decision-making and technology evaluation
- Definition of engineering standards, CI/CD workflows, and deployment strategies
- Embedded collaboration within client engineering teams
- Project delivery oversight from concept to production

Selected Engagements

- Architecture & implementation of ESG data platform for institutional real estate portfolio management
- Backend modernization and cloud migration for digital investment platform
- Design and operation of scalable white-label e-commerce solution
- Establishment of CI/CD and infrastructure automation for SME environments
- API architecture and backend system modularization

Independent Consultant — *Software & Platform Engineer (Part-time / Project-based)*

12/2021 – 01/2023

- Backend development and platform modernization
- Cloud infrastructure management (GCP)
- CI/CD and deployment workflow optimization
- Integration into existing client engineering teams

SDA SE — *Software Developer*

08/2021 – 01/2023

- Development and maintenance of microservices in insurance domain
- Internal developer portal enhancements (Backstage)

- Multi-cloud enablement (AWS, GCP, Azure)

AurityLab UG — Co-Founder & Managing Director

01/2018 – 12/2022

Software venture focused on proprietary digital products.

- Designed and operated multiple web platforms and MVP products
- Led product architecture, backend implementation, and deployment
- Validated product ideas through iterative MVP development

ADITO Software GmbH — Software Developer (and Apprenticeship for 3 years)

09/2016 – 07/2021

- CRM platform feature development
- Performance optimization (caching systems)
- Automated testing implementation (Cypress, JUnit)
- Data visualization components
- Feature implementation and system maintenance
- Internal tooling development
- Thesis project: modernized frontend navigation architecture

PROJECTS

recaptcha-v3 / vue-recaptcha-v3

Open-source library for Google reCAPTCHA v3 (300+ GitHub stars)

Content & Social Platforms

2014–2020

- Built and operated multiple web platforms (incl. content aggregation and social media) reaching several million monthly pageviews
- Full-stack ownership: architecture, ad monetization, CDN, and operations

TECHNICAL SKILLS

Languages

TypeScript | JavaScript | Java

Frameworks

Next.js | Nest.js | React | GraphQL

Cloud & DevOps

Google Cloud Platform | Docker | Kubernetes | Terraform | Pulumi | ArgoCD | CI/CD

Architecture

API Design | Backend Systems | Infrastructure Automation | System Modernization

EDUCATION

Apprenticeship in Software Development

IHK Niederbayern (2016–2019)

LANGUAGES

German (Native)

English (Advanced)
